

Rector-Elect Of Calvary To Preach

Rev. Charles F. Blaisdell, rector-elect of Calvary Episcopal church, will visit Memphis Sunday and preach for the first time at that church. Dr. Blaisdell will not assume his duties here until June 15, but will be here Sunday to make the acquaintance of some of the members of the parish. For a number of years, Dr. Blaisdell has been rector of St. John's church at Helena, Ark., and previous to that was rector of a large church in St. Louis. He is a man of varied interests and many accomplishments, and he has been especially active in civic affairs and welfare work.

THIEF, IF YOU HAVE TEARS, WEEP AT THIS

The thief who ransacked the apartment of J. M. Barber, 245 South Bellevue boulevard, late Friday, and got only a stickpin and silk underwear, probably will kick himself when he reads this. He overlooked two certified checks for \$1,100 and \$1,400, respectively, that would have been easily passed. Four \$50 Liberty bonds were also overlooked among the papers which contained the checks, and which were thrown on the floor by the burglar.

The robbery was discovered by two young men rooming adjoining the Barker apartment in the Bellevue flats. Mr. and Mrs. Barker are out of the city. Detective Sergts. Gwaltney and Joyce made an investigation Saturday.

Play as You Pay.

Sonora phonographs are sold on the deferred payment plan. Variety of models from \$60 to \$750. Fortune-Ward Drug Co. (entire second floor), 111 Madison avenue.

STEPHENS SALIENT SIX

"The Car You Will Eventually Buy"

THE GREATER PRIDE IN OWNERSHIP OF ITS
GREATER VALUE—ITS GREATER SERVICE

There is a justly deep-seated pride and joy in ownership of a Stephens. For the Stephens contains so much which pleases and serves and satisfies.

Stephens hand-built bodies are mounted upon its wonderful riding chassis.

And in this chassis is the most powerful and most economical engine for its size in passenger automobiles.

It is no respecter of the grades of gasoline you feed it. It burns all the gas and the lowest grades of gasoline without lessened performance.

And this engine makes the Stephens a salient all-round road-performer. It gives the Stephens speed, endurance, flexibility, hill-climbing ability, and smooth riding at their maximum.

Hudson is Best Known For Its Super-Six Motor

Official Proofs Established Its Supremacy; Thus
Hudson Became the Largest Selling Fine Car

Few of the 90,000 Super-Six owners have ever tried the limit of Hudson speed or power. They realize they have a vast reservoir of ability that is never called on.

Yet no one mistakes it for mere idle surplus simply because it is beyond his ordinary requirements.

For that latent capacity is Hudson's greatest value. It is the life of a car. Because of it, thousands are now getting the fullest satisfaction and service from Super-Sixes nearly five years old. They know the durability it gives. They know what it means in smooth operation. Their cars have required neither costly replacements nor constant attention to minor disorders.

Moreover, it is good to know that you have at instant call greater speed, acceleration and hill-climbing ability than any other stock car has ever shown.

**80% More Efficient—
Within 10% of Perfect**

Many have called the Super-Six "the perfect motor." That, of course, is not accurate. Perfection would mean utter freedom from friction and vibration. No machine can ever be that. But the Super-Six comes within 10% of it. Could another type approach that close Hudson's records might be matched. But for nearly five years they have stood. None has equaled

them. The possibility of their being rivaled seemed never more remote than now. Certainly the type to do it has not yet appeared.

And mark this important fact, Hudson's supremacy means no added complications, weight or size. The patented Super-Six principles applied to a standard type of motor added 72% to power. Motor efficiency is increased 80%. Endurance thus has been increased to limits yet unknown.

Note These Tests Made to Prove Its Endurance

Think that a Super-Six stock chassis set the speed record at the rate of 102.53 miles per hour. A stock Super-Six holds the acceleration record. And Hudson made the fastest time for the famous Pike's Peak hill climb. The Super-Six principle in speedway racing won more points than any racing team ever took, in a single year. And think of Hudson's double trans-continental run of 7,000 miles in 10 days 21 hours. No other car ever equaled its time in either direction.

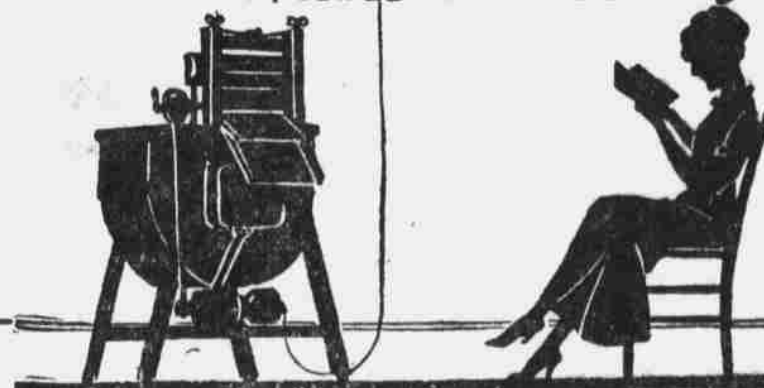

Those tests speak for Hudson endurance—the real reason for its appeal to you today. There can be no question regarding its beauty, its completeness, its fineness—advantages patent to any observer.

You will best assure delivery when you want it by speaking for your Hudson now.

Wash Electrically

You Should Have An Electric Washer

It's Extravagance to Pay for Labor
Which Is Better Performed By Machine

WASHING and ironing by electricity is a necessity these days. An electric washer is an investment you can't afford to postpone. It will pay big dividends the first day it is used and keep on paying them long after the purchase price is forgotten.

There are numbers of good machines on the market. Some are undoubtedly better than others, but they are all good machines. Though it is obvious that all cannot be "the best," at the same time when you step into an electrical store, and that's where you should go, that store is going to say, "This is the best."

All right. You can't fool an electrical man when it comes to electrical goods. If he thinks he has the best electric washer, depend upon it that he has a good one, else he could never enthuse over it.

Electrical stores cannot enthuse over goods not made right, because electrical men seek to avoid repair jobs.

Every home should have an electric washer. It should be purchased of a dealer whose business it is to sell electrical goods. He should also be, and is, prepared to extend to you the club plan of divided payments to meet your convenience.

It Is Always Safe To

Buy Electrical Goods at Electrical Stores
